HOW WE DO IT

We've taken the best parts of traditional production studios, marketing companies and ad agencies, added a little transparency, and a heaping spoonful of ***amazing*** customer service.

WHY WE DO IT

Our philosophy is simple – Clients First.

It's been that way since we opened our doors over 50 years ago.

Over the years we've grown, pivoted, and improved in a way that elevates the work we do to a better and faster level.

OUR BEGINNINGS

Established in 1967 by Warren Miller, Studio Center started with Two Rooms and Four Microphones. Audio was still edited and recorded on Tape.

A woman with long dark hair, wearing a red beanie and large red headphones, is shown in profile, looking upwards and to the left. She is in a recording studio, with a professional microphone on a boom arm positioned in front of her. The background is a dark, textured wall, likely acoustic foam. The lighting is dramatic, with a strong red glow emanating from the headphones.

I have had such amazing experiences with Studio Center. They are flexible, fast, and operate as though they've carried out a final audio mix with them. I have also worked with them on VO casting and it's always such a smooth and efficient process for you!

I work for my organization - primarily for VO talent services. Every encounter with their staff is professional and friendly. Above all, Studio Center understands deadlines and will do what it takes to get the job done.

Studio Center is my go to when I need help creating a commercial message for my clients. The script is top notch and they provide multiple options for me to choose. The voice over talent they employ has a wide range and the production team really makes them stand out among the stop set. Big fan here.

I loved working with Studio Center and will definitely be back for future projects! The team is super friendly, easy to work with. They did a good job of understanding my vision and delivered excellent results.

We had an outstanding experience with Studio Center. We needed a quick turnaround on a video for a client, and they came through with time to spare. Their project management and communication throughout the process were exceptional. I'll definitely work them again.
