Welcome to Studio Center.

WHAT WE DO

- Video Production
- Audio Production
- Branding & Creative
- Digital Marketing
- Social Media Marketing
- Web Design and Development
- Media Strategy
- Fulfillment Agency

HOW WE DO IT

We've taken the best parts of traditional production studios, marketing companies and ad agencies, added a little transparency, and a heaping spoonful of *amazing* customer service.

WHY WE DO IT

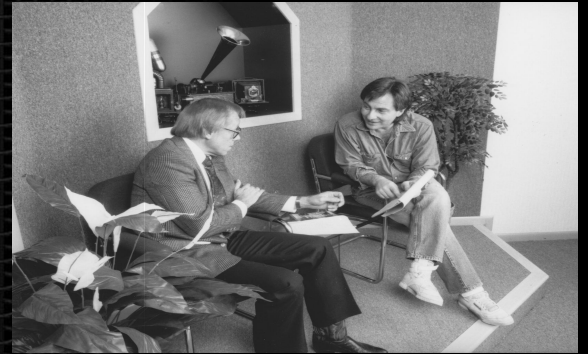

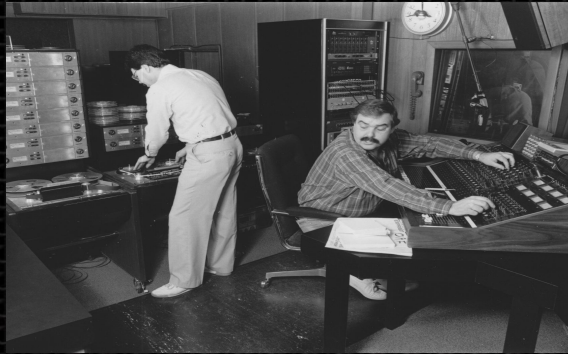

Our philosophy is simple – Clients First.

It's been that way since we opened our doors over 50 years ago.

Over the years we've grown, pivoted, and improved in a way that elevates the work we do to a better and faster level.

OUR BEGINNINGS

Established in 1967 by Warren Miller, Studio Center started with Two Rooms and Four Microphones. Audio was still edited and recorded on Tape.

Blue Ridge Energy Video

A woman with long dark hair, wearing a red beanie and large red headphones, is shown in profile, looking upwards and to the left. She is in a recording studio, with a professional microphone on a boom arm positioned in front of her. The background is a dark, textured wall, likely acoustic foam. The lighting is dramatic, with a strong red glow emanating from the headphones and casting a soft light on her face and hands.

HELPING YOU SAVE

Give your oven a break by grilling out!
It's just one of the easy summer savings tips you can try to help you lower your energy use and bills. Want more ways to save? Turn the page.

**BlueRidge
ENERGY**

HELPING YOU SAVE

Try these simple ways to help you take the heat off summer energy bills:

- ✓ **ADJUST** ceiling fans to turn counterclockwise. The downdraft helps rooms feel cooler.
- ✓ **TAKE** cooler, short showers instead of hot baths. Be refreshed.
- ✓ **CLOSE** drapes and shades on sunny days. You'll cool things off and be more mysterious.
- ✓ **TACKLE** laundry — especially clothes drying — after the sun goes down. Washing clothes in cold water and line drying them helps, too.
- ✓ **GRILL** outdoors. Or, use the microwave, instead of the oven.
- ✓ **BUMP** up the thermostat. If using a smart thermostat, set the temp higher when you're away from home.

Grilled Lime Chicken recipe

Ingredients

- 8 boneless, skinless chicken breast halves (14 ounces each)
- 1/2 cup lime juice
- 1/2 cup lime oil
- 4 garlic cloves, minced
- 2 tablespoons chopped fresh dill, divided
- 1/4 teaspoon pepper

Place chicken in a shallow dish. Combine the lime juice, oil, onions, garlic, 2 tablespoons dill and pepper; pour over chicken and marinate, refrigerator covered, 2-4 hours.

Drain chicken, discard marinade. Oil chicken, cover, and broil on hot grill for 3-4 minutes on each side, or until a thermometer reads 165°. Sprinkle with remaining 1/4 teaspoon dill.

SYSTEMS FOR WASTEWATER TREATMENT PLANTS

Reliable, Energy Efficient Solutions

Wastewater treatment plants provide critical service to our communities. WWTP systems operate continuously and equipment must be completely reliable and sustainable. Kaeser delivers exceptional air system solutions for wastewater treatment operations that are engineered for long life and continuous energy savings.

Meeting Tough WWTP Requirements... and More.

In order to best serve the community, WWTP designers and operators need systems that offer:

- Best-in-class equipment reliability
- Limited footprint space
- Simplicity and ease of maintenance
- Superior energy efficiency
- Small footprint and ease of installation
- Low-noise operation

To fulfill these needs and more, Kaeser supplies fully packaged blower systems for applications including aeration, backwashing, and bio-gas recovery. We also provide complete compressed air systems for controls, instrumentation, and shop air.

Beyond the excellent performance and quality of our equipment, Kaeser offers comprehensive design and installation support, 24-hour emergency parts delivery, preventive maintenance and repair services, air system audits, and more.

KAESER COMPRESSORS
